Our UK & Ireland Industrial Business

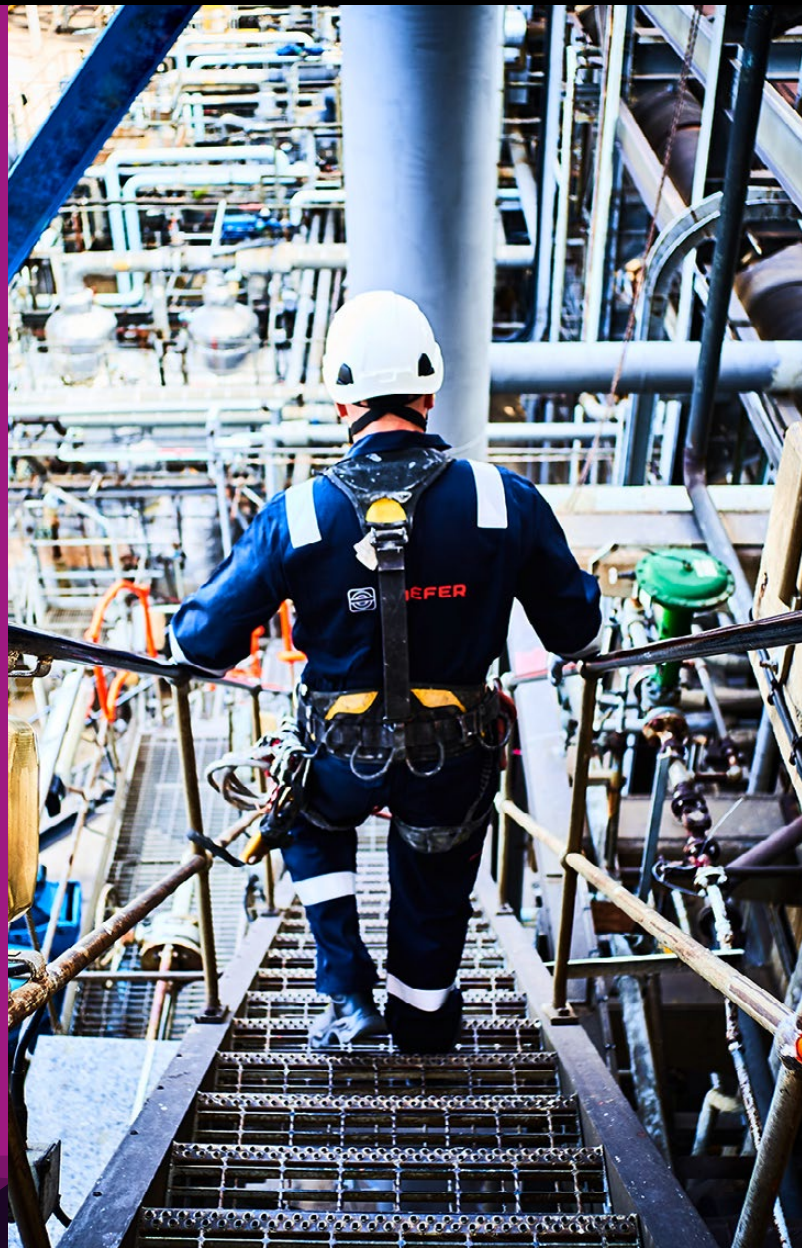

Reliably and efficiently providing world-class industrial services.

We are proud to serve the dynamic Industrial sector across the UK and Ireland. Our comprehensive industrial services meet the unique challenges faced by companies operating in a wide range of industries, including refining, power generation, chemicals, pharmaceuticals, food and beverage, and utilities.

Our team of seasoned professionals brings a wealth of experience and deep industry knowledge to every project. By partnering with leading suppliers and staying at the cutting edge of industry developments, we ensure that our clients benefit from the most advanced and effective solutions available.

Whether it's maintaining critical infrastructure or optimising production processes, KAEFER is committed to delivering exceptional results with a focus on safety, reliability, and excellence.

We are more than just a service provider; we are a trusted partner in your success.

Count on us for Technical Industrial Services

We ensure the integrity, value, and longevity of our clients' assets in the industrial sector. With unrivalled experience and expertise, our teams provide a trusted partnership and tailored support to deliver the most challenging and complex projects for our clients.

ACCESS SOLUTIONS

Providing efficient access solutions, including scaffolding, rope access, and MEWPs, prioritising safety, flexibility, and compliance with all legislative requirements.

ROPE ACCESS

Offering rapid, safe rope access solutions for hard-to-reach areas, integrating with welding, inspections, and training. KAEFER also offer competent IRATA Training.

INSULATION

Delivering comprehensive insulation services, enhancing energy efficiency and safety across industries, with expertise in thermal, acoustic, and fire protection.

SURFACE PROTECTION

Providing advanced surface protection services, including coatings, linings, and fireproofing, ensuring long-lasting durability and safety for industrial assets.

EC&I

Delivering integrated Engineering, Construction, and Insulation (EC&I) services, ensuring efficient project delivery from design through to execution and maintenance.

MECHANICAL & ELECTRICAL

Supplying comprehensive mechanical and electrical services, including installation, maintenance, and project management, ensuring efficient, high-quality solutions for various industries.

HVAC & METAL FABRICATION

Supplying specialised HVAC fabrication services, offering custom design, manufacturing, and installation for climate control and ventilation systems.

PASSIVE FIRE PROTECTION

Protecting people and property with advanced passive fire protection solutions, enhancing safety and compliance in industrial environments through customized coatings, linings, and systems.

Products & Services

HVAC FABRICATION

With over 25 years of expertise, KAEFER UK & Ireland is a leader in precision-engineered steel fabrications, ductwork, and HVAC solutions.

No matter the HVAC or metal fabricated solution you need, you can count on us to supply products tailored precisely to your requirements, installed to the highest standard and fully tested to ensure they fulfil the most demanding duty standards and requirements.

CAPABILITIES:

- Plasma Cutting
- Folding
- Rolling
- Manual Welding
- Mechanised Welding

DEW POINT REDUCTION SYSTEM

KAEFER's patented technology utilizing advanced dehumidification equipment, the Dew Point Reduction System (DPRS), is a portable dehumidification system that uses the latest state-of-the-art 'Dry Air' technology.

The system allows inspection and remediation activities to be undertaken on insulation running at cryogenic temperatures without the need to shut down the plant: allowing piping and vessel maintenance teams to carry out work activities previously unachievable on live plant.

Products & Services

ENERGY AUDITS

KAEFER offers specialised energy audits to identify areas of energy loss and offer customised solutions.

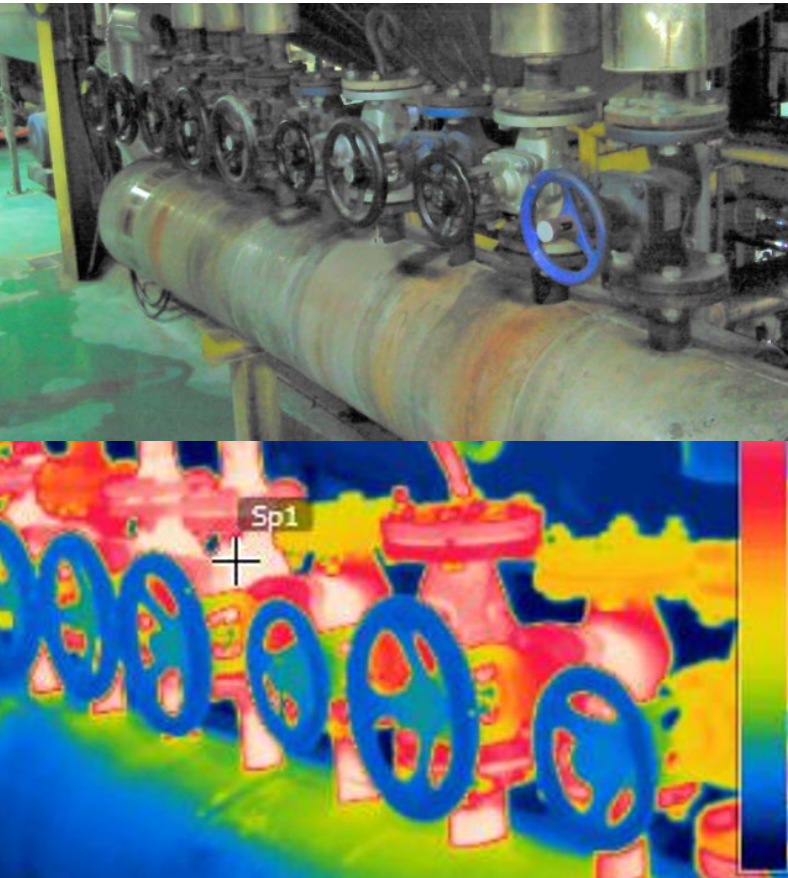

Utilising KAEFER's own Thermo Technical Calculation Software (WTB), KAEFER undertakes inspections on clients' assets to determine heat loss. Following the inspections, KAEFER Insulation Specialists compile reports, complete with detailed analysis.

THESE REPORTS INCLUDE:

- Alternative insulation/cladding material recommendations
- Insulation of unprotected areas prone to energy loss.

BLU - REAL-TIME CUI MANAGEMENT CONTROL

blu, empowered by KAEFER, is a cutting-edge solution designed to tackle Corrosion Under Insulation (CUI) challenges through real-time, data-driven monitoring.

Using advanced sensors, IoT technology, and robotics, Blu enables continuous assessment of assets, allowing for predictive maintenance and early issue detection.

This proactive approach helps enhance safety, reduce maintenance costs, and extend asset life, while supporting sustainability efforts.

Focusing on Customer Value

FOCUSING ON CUSTOMER VALUE

LEAN is working. Not just for our clients, but for us as well.

Simply put, LEAN means creating more value for our clients as well as for our teams. This is achieved by generating as close to zero waste as possible by optimising processes and continuously improving them.

The idea is to waste less time, effort, and materials. We call getting things right the first time, heading towards 'True North'.
